

March 25, 2020

As we continue to adjust to changes driven by the coronavirus (COVID-19) pandemic, **DPMG remains open**. We are dedicated to providing high quality essential pathology services to the local medical community and hospitals we support.

At DPMG the health and safety of our staff, providers and community is our number one priority. During this time, we are taking necessary steps to follow COVID-19 health and safety recommendations and minimize the risk of transmission by implementing the following:

- More stringent cleaning and sanitizing measures throughout our laboratory work areas
- Staggering shift times and implementing work from home options when feasible
- Encouraging social distancing amongst our team members
- Working with our team of couriers to assure that they continue to follow safe practices
- Continuing education for our employees on CDC guidelines

Please be reassured that our couriers are still conducting regular pickups and supplies will be provided as needed. If you are in need of a lockbox or a change in courier service, please let us know.

We recognize that this is a challenging situation that is changing on a daily basis. Rest assured that we are doing everything we can to do our part in supporting the health care system and the community we serve.

We value our relationship with each of you and thank you for placing your trust in DPMG.

From our DPMG family to yours, stay safe and healthy.

Sincerely,

Defek Marsee, M.D., Ph.D.  
President
